Service users and staff are supported by an in-house clinical team comprising of:

Care packages and support plans are reviewed regularly via a therapeutic team meeting enabling constant monitoring and reviewing of an individual's care, which provides benefits in:

- Recognising deterioration in mental or physical health
- Addressing any problems quickly
- Ensuring individuals are engaging in meaningful and positive activities
- Helping individuals maintain links to friends and family
- Supporting service users to achieve greater independence.

Our child is living in an organisation that puts their clients' well-being first. It is a very nice feeling to have, I can tell you.
