We place great emphasis on service user empowerment and participation through development of social skills, community access and supporting individual's tastes and preferences. Prior to moving into Supported Living each individual will have undergone extensive assessment, including risk assessment, to identify their needs and to provide the correct level of support to meet those needs in addition to maintaining their safety.

Service users and staff are supported by an in-house clinical team comprising of:

Consultant Clinical Psychologist

Senior Behavioural Specialist

Assistant Psychologists

Registered Manager

Support Team Leader

Care packages and support plans are reviewed regularly via a therapeutic team meeting enabling constant monitoring and reviewing of an individual's care, which provides benefits in:

- Recognising deterioration in mental or physical health
- Addressing any problems quickly
- Ensuring individuals are engaging in meaningful and positive activities
- Helping individuals maintain links to friends and family
- Supporting service users to achieve greater independence.

I'm happy at Karmel and like all staff. I enjoy the telly, barbecues in the summer and music.
